

Technical Working Group Report

Martin Mareš

`mj@ucw.cz`

September 2012

No major changes since the previous IOI, only maintenance.

Mailing lists:

- **ioi-announce** – low-volume, moderated, **please subscribe**
- **ioi-discuss** – general discussion
- **ioi-ic** – members of the committees
- **ioi-sc**
- **ioi-twg**
- *<http://lists.ioinformatics.org/>*

Other:

- Secure drop-box for task submissions
- Internal ISC systems

The plethora of IOI websites:

- www.ioinformatics.org (aging)
- [wiki](#) (promising)
- ioi2004.org (already extinct)
- ioi2009.org
- ioi2011.or.th
- olympiads.win.tue.nl (obsolete)

We would like to put everything under *ioinformatics.org*:

- **lists**.ioinformatics.org – mailing lists
- **wiki**.ioinformatics.org – IOI wiki (in progress)
- **www**.ioinformatics.org – to be replaced by the wiki later
- *year*.ioinformatics.org – for use by the hosts

We have a new **sandbox**:

- very low overhead
- capable of running multi-threaded programs
- presented at the IOI conference
- will be used at IOI 2013

We are cooperating with developers of the **CMS** contest system (used this year).

We have helped fix this year's **translation system**. The concept is very promising, hopefully the implementation will be fine-tuned for the next IOI.

Contributions welcome!

THE END
